

PORTFOLIO SHOWCASE

3 Project Ideas

Prepared by Issa Aljariri

IDEA 01

PharmaFind

Rare prescription locator & pharmacy SaaS network.

IDEA 02

PetRadar

Instant GPS alert system for lost pets & neighborhood network.

IDEA 03

CV-Bypass

AI resume optimization tool beating automated HR filters.

PROJECT IDEA 01

PharmaFind

Connects patients with rare prescriptions to independent pharmacies within a 5km radius via live WebSocket pings.

TARGET

Chronic patients & independent pharmacies.

REVENUE

\$15/month B2B SaaS for pharmacies.

VALUE

Guaranteed foot traffic without ad spend.

AI FEATURE

Handwriting OCR converts messy prescriptions.

PROJECT IDEA 02

PetRadar

Drops a GPS pin and pushes instant notifications to a 3km radius of registered neighbors and vets.

TARGET

Distraught owners & local vets.

REVENUE

Freemium with \$15 SMS radius boost.

VALUE

Bypasses slow social media algorithm delays.

AI FEATURE

Visual matcher scans stray animal photos.

PROJECT IDEA 03

CV-Bypass

Parses job descriptions against user CVs to generate match scores and inject missing keywords naturally.

TARGET

University graduates & job seekers.

REVENUE

\$5/month for unlimited resume scans.

VALUE

Beats automated HR rejection filters.

AI FEATURE

Auto-rewrites bullets to inject missing keywords.
